📊 DLOOP BUDGET TECNICO

Previsione Finanziaria 6 Mesi - Versione NORMAL

Versione Completa €75K | Aggressive Growth | Full Team

🎯 Metriche Chiave Consolidate

BUDGET TOTALE	PREVISIONE REVENUE M6
€75,000	**€28,750**
Seed Round Completo	Monthly Recurring Revenue

BURN RATE MEDIO	RUNWAY
€9,958	**7.5 Mesi**
Mensile (OPEX solo)	Con €75K seed

BREAK-EVEN	DEALER GROWTH
Mese 8	**4 → 75**
EBITDA Positivo	18.75x Crescita Aggressiva

💼 Modello Revenue SaaS (Subscription-Based)

NON % su venduto - Solo subscription fissa:

✓ **Software Fee**: €149/mese per dealer (infrastruttura + supporto)

- ✓ **Transaction Fee**: €0.50 per ordine processato (tech cost)
- ✓ **Setup Fee**: €500 one-time per dealer (onboarding)

Vantaggi del modello SaaS:

- ✓ Dealer guadagna 100% su ogni ordine (noi prendiamo solo €0.50 flat)
- ✓ Ricavo predicibile (€149/mese fisso, totalmente transparent)
- ✓ Incentive aligned: più ordini = più fee per entrambi
- ✓ No commission war (SaaS è defensible vs % commission)

💰 Investimenti Iniziali (CAPEX)

CATEGORIA	DESCRIZIONE	COSTO	% BUDGET
SVILUPPO PRODOTTO

🎯 Milestone Mensili

MESE	DEALER	REVENUE	MILESTONE PRODOTTO & TEAM
M1	4	€3,346	MVP live. Amodio pilot. Validazione market-fit.
M2	10	€6,365	Product refinement. PM hired. Marketing campaign starts (Google Ads).

MESE	DEALER	REVENUE	MILESTONE PRODOTTO & TEAM
M3	20	€11,730	Paid marketing working. Growth/Marketing hire. Target 20 dealers achieved.
M4	35	€19,278	Scaling aggressively. Milano market entry. Support team growth.
M5	55	€28,508	Network effects visible. 2nd cooperativa onboarded. Cash flow positive M5+.
M6	75	€35,238	75 dealers target hit. Series A readiness. 3-city expansion in progress.

✅ Assunzioni Critiche

Revenue Model Confidence

- ✓ €149/mese è 67% cheaper che Glovo (€450+/mese @ 30% commission)
- ✓ €0.50/ordine copre infrastructure + payment processing + support
- ✓ €500 setup fee è amortized over dealer lifetime (LTV €5.3K)

Aggressive Growth Assumptions

- ✓ 4 → 75 dealers (18.75x) richiede aggressive paid marketing
- ✓ €18.9K marketing spend leva dealer acquisition efficacemente
- ✓ 15 ordini/dealer/giorno è realistic per Napoli + Milano combined
- ✓ Organic growth + paid advertising mix creano viral loop M3+

Team & Operations

- ✓ CEO + CTO from M1 (founder + technical co-founder)
- ✓ PM hired M2 (€2.5K/mese) per product velocity
- ✓ Growth hire M2 (€1.5K starting) managing paid acquisition channels

- ✓ Support hire M3+ as volume scales (€1K → €3K)
- ✓ Total team M6: 5 FTE (full operational capability)

⚠️ Rischi Critici

Paid Marketing CAC Risk

Se Google Ads CAC sale sopra €500, LTV/CAC ratio deteriorates.

✓ **Mitigation:** Organic referral program (rider incentives). Fallback a Guerrilla model if CAC > €600.

Dealer Churn

Se retention cala sotto 95%/mese, growth rallenta.

✓ **Mitigation:** NPS monitoring, fast customer support, product improvements based on feedback.

Competitive Price Wars

Glovo/Alfonsino could aggressively undercut €149/mese subscription.

✓ **Mitigation:** Product moat (superior UX, faster support, better analytics). Lock dealers with contracts.

Team Hiring Delays

If PM/Growth hires delay beyond M2, growth stalls.

✓ **Mitigation:** Pre-recruit contractors before funding. Equity incentives for key hires.

Rider Supply Constraint

Model depends on rider availability for delivery execution.

✓ **Mitigation:** Amodio brings 20 riders M1. Rider incentive program (5% commission). Partner with delivery agencies.

DLOOP Budget Tecnico Normal - SaaS Model

Aggressive growth version with paid marketing | Break-even M8 | Full team scaling

Model: SaaS | Seed: €75K | Burn: €9.9K avg | Runway: 7.5 mo
